10 July 2017

Dear Dr. Vanfretti,

I am contacting you because IEEE *Access* Editorial Board Member, Dr. Yilu Liu, has recommended you as an invited author (with waived fee) for contributing an article to IEEE *Access*.

IEEE *Access* is an award-winning, multidisciplinary, open access journal continuously presenting the results of original research or development across all of IEEE's fields of interest. More information regarding IEEE *Access* can be found at: http://ieeeaccess.ieee.org/

Invited articles must meet high scholarly publishing standards as I look on them for increasing citations:

› Should be complete and detailed, with full explanation of history, background, alternate approaches, applications, technological method, and expanded conclusions. Remember that IEEE *Access* does not have a page limit.

› Must be an original article with good English grammar

› Article will go through peer review process

IEEE *Access* also strongly encourages submission of video, so we would greatly appreciate if you would also provide multimedia submission(s) with your manuscript. All multimedia must be sent to peer review with your manuscript for evaluation and should not exceed 100MB. Video may be simulations, demonstrations or interviews with other experts, and can be a great tool to enhance and promote your article. Typically, the most popular articles in IEEE *Access* all have multimedia.

Please submit your completed paper to IEEE *Access* at: https://mc.manuscriptcentral.com/ieee-access

I look forward to hearing from you.

Sincerely,

Michael Pecht,
Editor-in-Chief, IEEE *Access*
